# Michigan Delegation To National Bank Convention Expected to be 'Big Noise'

A GRANDSTAND PLAY appears in the making at the National Democratic convention next August by the Michigan delegation.

The recent Democratic state convention in Grand Rapids outwardly spent most of its time passing the "Michigan Declaration" and several resolutions for members to present to the national platform committee. These should focus national attention on Governor Williams.

The "Michigan Declaration" basically is a listing of goals covering a wide variety of human relations as seen by the state Democratic party. According to Democratic spokesmen it will be circulated nationwide. Concerning fields ranging from automation, through agriculture and social security, it offers "something for everyone."

Its terms are expected to be subject for much argument in coming campaigns.

Even more controversial within the national party organization are resolutions the Michigan delegation will present for adoption into the national platform.

Interest centers around the strongly worded civil rights resolution, an issue which has always met violent opposition from Southern delegates. It is considered doubtful that the Democratic party can adopt a strong civil rights plank without splitting the party wide open.

In such a party battle, Governor Williams might emerge a strong leader.

The STATE IS ASKING local governments what it can do to help them get ready for the St. Lawrence Seaway.

A special legislative committee started a series of hearings in prospective port cities and in Lansing, calling in the experts for advice.

Senator Carlton H. Morris (R-Kalamazoo), chairman of the committee expressed surprise at the many problems to be solved if best advantage is to be realized from Seaway operation.

What the state can do to help is still uncertain, but the legislature will welcome ideas. A bill passed last year already gives a property tax break to goods stored in dockside public warehouses.

The picture in Lansing, remains confused. Detroit, the number one port, has growing pains. People close to the scene are involved in political squabbles over responsibility and jurisdiction.

Muskegon is certain to be another port. Plans are in the making to create a port in the Saginaw Bay area. Two more are planned in the Upper Peninsula, to draw trade as far west as North and South Dakota.

Years in thinking and planning have gone into the Seaway. It is scheduled to be finished in 1959 when ships with a 14-foot draft can negotiate the channels.

By 1962, the state foresees completion of the Seaway to handle ships with 25-foot drafts. This will bring commerce to Great Lakes ports in volume for the first time in history.

Smaller ships with specialized cargo have piled the route for some years.

To lighten their loads so they could get through shallow channels into the Great Lakes, larger ships had to schedule first shipments to Canadian ports.

Experts predict a vast economic boom when the Seaway is completed. Besides bringing in foreign goods at a lower cost, the system will move processing of raw materials closer to the consumer. The attraction of world transportation by water will lure new industries.

Recognizing what will happen, leaders in the legislature from both parties are working to reserve recreational areas for the people before they are captured to serve the booming industrial development.

Some ideas propose a state port commission to coordinate local port activities and developments, state grants to help finance port systems, a state code for the conduct of port business.

"I still like the idea of local governments—including port districts—running their own businesses," Senator Morris said.

## Solon O. Richardson, 3rd Succumbs In Toledo

Solon O. Richardson, 3rd, 68, Toledo businessman and former Perryburg mayor, died June 12 in Toledo Hospital a few hours after suffering a heart attack in the Hillcrest Hotel where he had lived the last three years.

Mr. Richardson was vice president of Fifty Associates, a real estate holding company.

The family moved to Toledo from Charlestown, Mass., when Mr. Richardson was one year old. His father was an official of the New England Glass Co.

Mr. Richardson attended St. Paul's Preparatory School in New Hampshire and was graduated from Harvard University in 1911. He was a crewman at Harvard and was an ardent sports enthusiast. They were a former member of the Pinal Club, a group of duck hunters and owned a fishing lodge at Grayling, for many years.

For 15 years, Mr. Richardson was vice president of the original Libbey Glass Co. in Toledo and Sandusky. During the 1930s, he also was president and treasurer of the Inza-Vita Laboratories, a food processing firm.

Mr. Richardson, who formerly lived at 3 Locust St., Perryburg, was a former president of Perryburg City Council and served as mayor two terms.

Surviving are his wife, Gertrude; daughters, Mrs. Robert A. Stranahan, Jr., and Mrs. Robert Roberts, Toledo, and Mrs. Robert Lang, Stamford, Conn., and 11 grandchildren.

Services were held at the Bennett Mortuary at 2:00 P. M. by the Rev. Malcolm Ward, rector of the Episcopal Church, Maumee. Burial was in Woodlawn Cemetery.

**TO THE PEOPLE OF THE PRESQUE ISLE DISTRICT**

I wish to express my appreciation for the confidence which has been evidenced in my ability as your State Representative. Recently I announced that I would not be a candidate for re-election to the office which I have filled for the past twelve years. I was sincere in that expression.

Friends and associates from not only Presque Isle county, but throughout the Presque Isle District, have seen fit to take steps to circulate my petitions and backed by a response which I feel is very unusual I have felt duty bound to allow my name to go before the voters.

This has been accentuated by the fact that both Rev. R. C. Puffer of Grayling and Harry F. Kenyon of Sage Lake, Ogemaw county, voluntarily agreed to withdraw their announced candidacies, which were announced following my original declaration, and have advised that they would both support my candidacy.

It seems to be the opinion of those who have advanced my candidacy so wholeheartedly that my years of experience in the legislature are of a value to the district which warrants their unselfish support. If nominated and elected, I am certainly under great obligation, and obligation which will be lived up to, to the best of my ability.

I wish to especially thank those who circulated my petitions. It is impossible for me to thank you individually, as I would wish, but I fully appreciate the interest you have shown and the effort you have made in my behalf.

## Ticketed For Failing To Have Car Under Control

Blanche M. Leach of Kalkaska was ticketed for failing to have her car under control and there by causing an accident by Grayling City Police last Wednesday.

The car operated by the Kalkaska woman was in a collision with a car driven by William C. Woodard of Grayville, Illinois at the intersection of Chestnut and Lake streets at about 10:45 a. m. Damage to the Leach car, a 1936 model, was estimated at about \$300 while damage to the Illinois vehicle, also a 1936 model, was estimated at from \$800 to \$1,000.

The ticketed driver is expected to appear before Justice of the Peace Arthur Clough. A city light pole was nearly broken into as a result of the crash. Restitution will probably be ordered. ## Cole Circus Here Thursday, July 6th

The George W. Cole Circus will be in Grayling under the auspices of the Kiwanis Club of Grayling. Always a big day for every youngster and for all those adults who are still young at heart.

The big white trucks and vans of the Geo. W. Cole Three Ring Wild Animal Circus will roll into town early Thursday morning and will move directly to the showgrounds of the City Park where the work of setting up the tents and other circus props will get under way. For all those able to get over to the showgrounds Thursday morning, the setting up of the circus should prove an interesting operation. The Cole Circus carries its huge "Big Top" on large truck-mounted spools, spreads it on the ground mechanically, and then raises it into the air with the help of ponderous elephants wearing special leather work harness. Stakes are driven mechanically and the big show goes into the air with amazing speed and efficiency. Around 10 a. m. on circus day, all of the circus's wild animal cages will be open for nearly an hour's free inspection by visitors to the circus grounds. The Cole Circus has found that this morning "Free Sample" has had an excellent effect on box office receipts by giving townspeople a chance to judge the quality and calibre of the show.

## Double Standard...

It has long been illegal for corporations to make contributions to candidates for political office. This legal restriction, obviously, is based on the theory that corporations otherwise would use their economic power to elect men who would serve special interests.

Whether or not such laws are wise is debatable. What is not debatable, however, is that similar restrictions do not apply to organizations which also have great economic power — the unions.

The head of a major union, the International Ladies' Garment Workers, has said that his union will have more than \$900 thousand available for contributions to candidates in this year's national election campaigns. He said also that the combined AFL-CIO political fund may reach \$3 million.

What conceivable justification can there be in forbidding corporations from financing political candidates — and at the same time permitting powerful unions to spend money on a huge scale for political purposes and political ends?

## Rain Maker...

The following advertisement, "WANTED — GENERAL SOAKING RAIN. PLEASE RUSH. CLIFF PERKINS," appeared in the West Branch, Iowa Times — Herbert Hoover's birthplace — on April 26. The paper went into the mail about 8:00 in the morning. By suppers the rain came and brought an end to an 8-month dry spell.

It is estimated this advertisement was worth millions to the residents of Cedar County and the state of Iowa. You don't have to argue with Cliff Perkins and his friends on the power of the country press.

ers magazine, a publication which represents a tradition of hard-headed profession, has to say: "No business man or woman in any town should allow a newspaper to go to press without his or her name and business being mentioned somewhere in its columns. This does not mean you should have a whole, half, or even a quarter page advertisement in each issue of the paper but your name and address should be mentioned if you do not use more than a two-line space.

"A stranger picking up a newspaper should be able to tell what business is represented in a town... it's the best possible town advertiser. The man or woman who does not advertise does an injustice to himself or herself and definitely to the town."

## Blue Sunoco First Choice of Automotive Engineers over all other premiums combined

IT'S PREMIUM IN EVERY WAY...  
STILL AT REGULAR GAS PRICE

We invited a large group of automotive engineers to try Blue Sunoco, boosted in octane, in their own cars and give us their reactions. The results of this survey, compiled by an independent firm of certified public accountants, make New Blue Sunoco the favorite.

43% already are users of Blue Sunoco  
Of the 1,166 engineers who reported on '56 Blue Sunoco, 43% told us they were already users of our gasoline. This was a far greater number than reported using all other premium gasolines combined—perhaps the greatest testimonial any gasoline ever had!

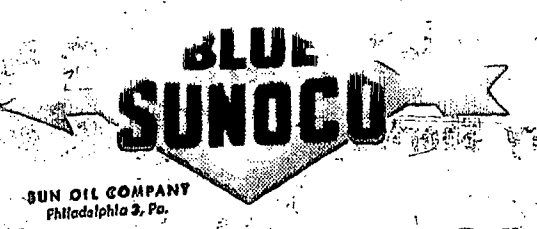

Blue Sunoco is recommended for the newest high-compression cars when owners' manuals specify a premium gasoline.

Up again in octane  
Blue Sunoco is the only gasoline that meets the new higher premium octane standards and sells at regular gas price. Follow the lead of automotive engineers. Make your own 10-gallon test today.

ing of the T. E. Douglas & Co.  
mill and a large lot of shingles,  
which was entirely consumed. The  
lumber yard and surrounding  
buildings were saved. The mill  
on the same site was burned two  
year ago, and the new mill im-  
mediately built, more modern and  
better in every way. It is not  
probable that they will rebuild it.

The school census of this dis-  
trict shows 596 pupils of school  
age; an increase of 48 for the  
year.

Elmer Haire, with his wife and  
little girl, were the guests of Mr.  
and Mrs. J. Manney over Sunday  
from Bay City.

W. C. Foley of Oscoda County  
and C. Wehnes of South Branch  
were in town Tuesday, we sup-  
pose to buy their fire crackers

By the courtesy of N. P. Olson  
who furnished the bus - for the  
kids, Miss Ruth Barlow took  
her Sunday School class to Port-  
age Tuesday for the day. She pre-  
vailed on Miss Louise Peterson

be unable to chaperone so many  
alone.
